Involving *macroeconomic analysis & top-down approach*

What is global macro investing?

□ 주요 특성

What is global macro investing?

□ 조지 소로스

GEORGE SOROS ONCE SAID...

Quote about Global Macro Investing

“

The **worse** a situation becomes,
the **less it takes** to turn it around,
the **bigger the upside**.

**Markets are constantly
in a state of uncertainty and flux,
and money is made by discounting the
obvious and betting on the unexpected.**

What is global macro investing?

□ Question: What is a global macro fund?

A global macro fund is a type of investment approach that invests in a diverse range of financial assets, including stocks, bonds, currencies, and commodities, based on macroeconomic analysis of global market trends. These funds typically take a top-down approach to investment, using economic and geopolitical trends to identify opportunities to profit...

Why invest in global macro strategies?

□ 분산의 중요성

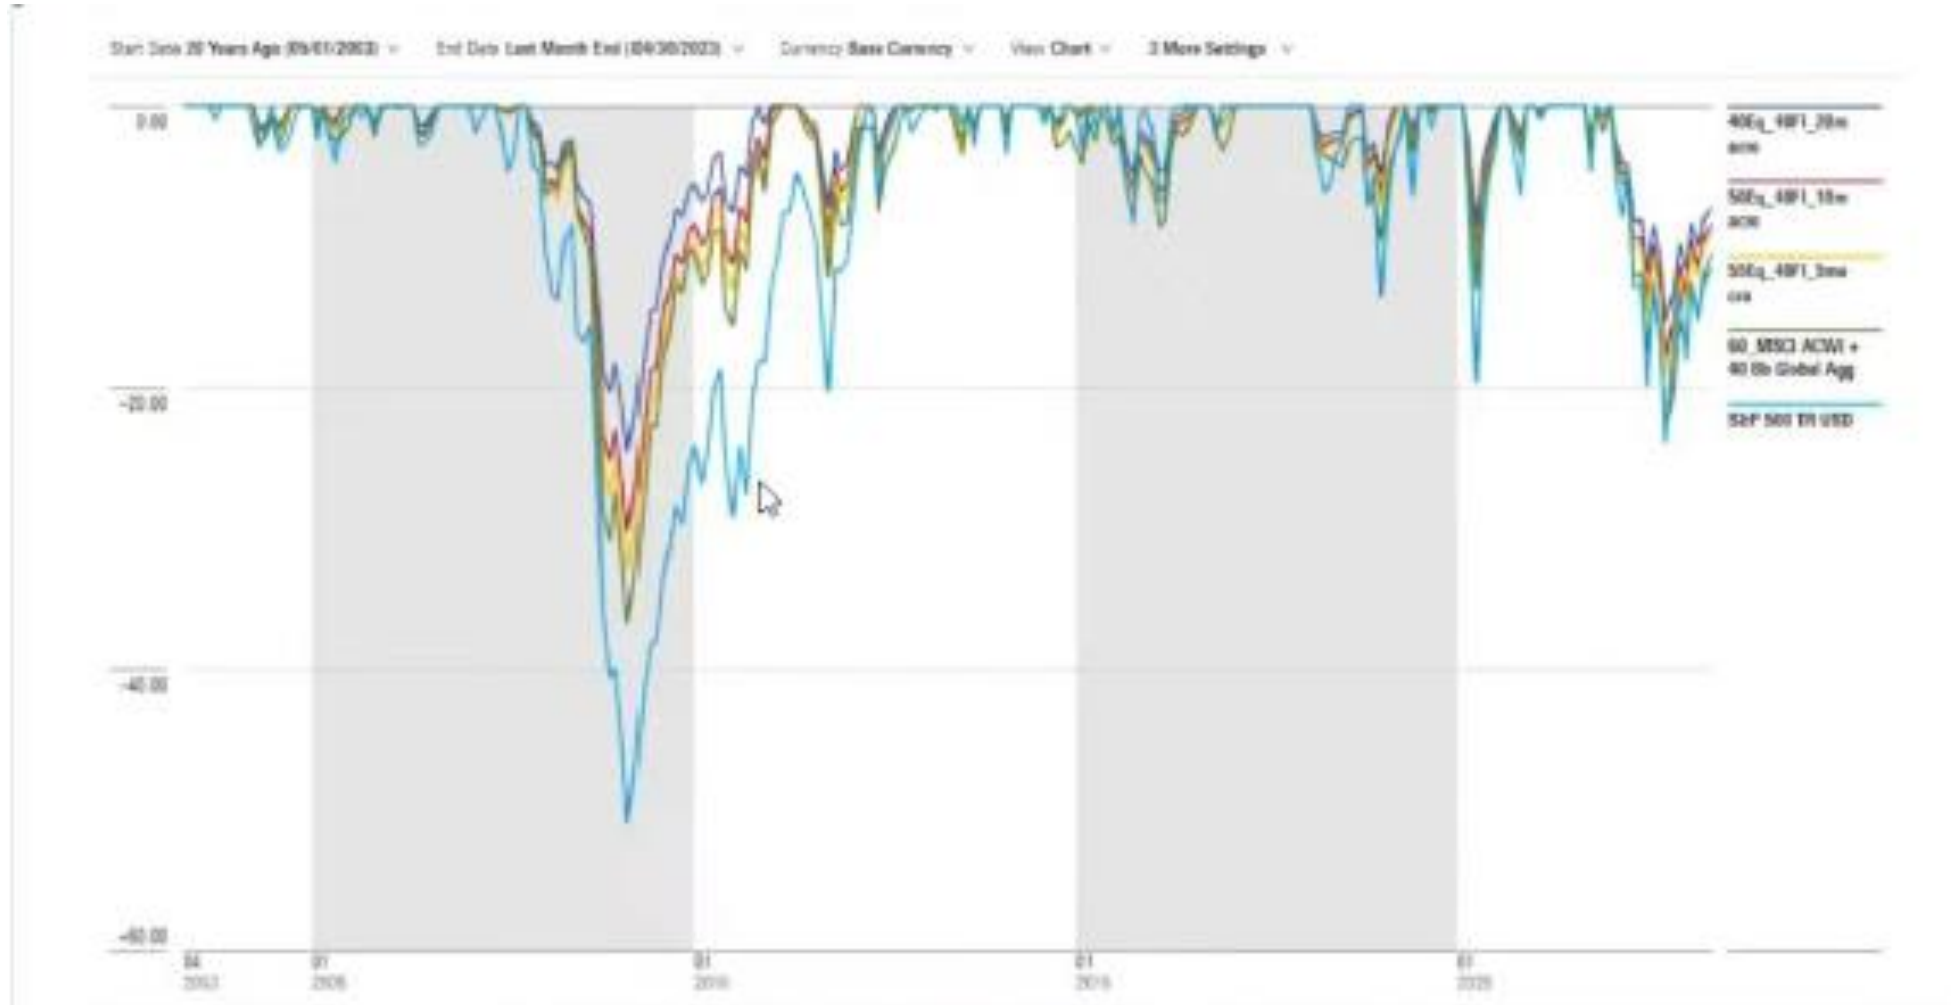

Benefits of Allocating to Global Macro

□ 사례 연구: 전통 60/40 대 글로벌 매크로 배분 포트폴리오

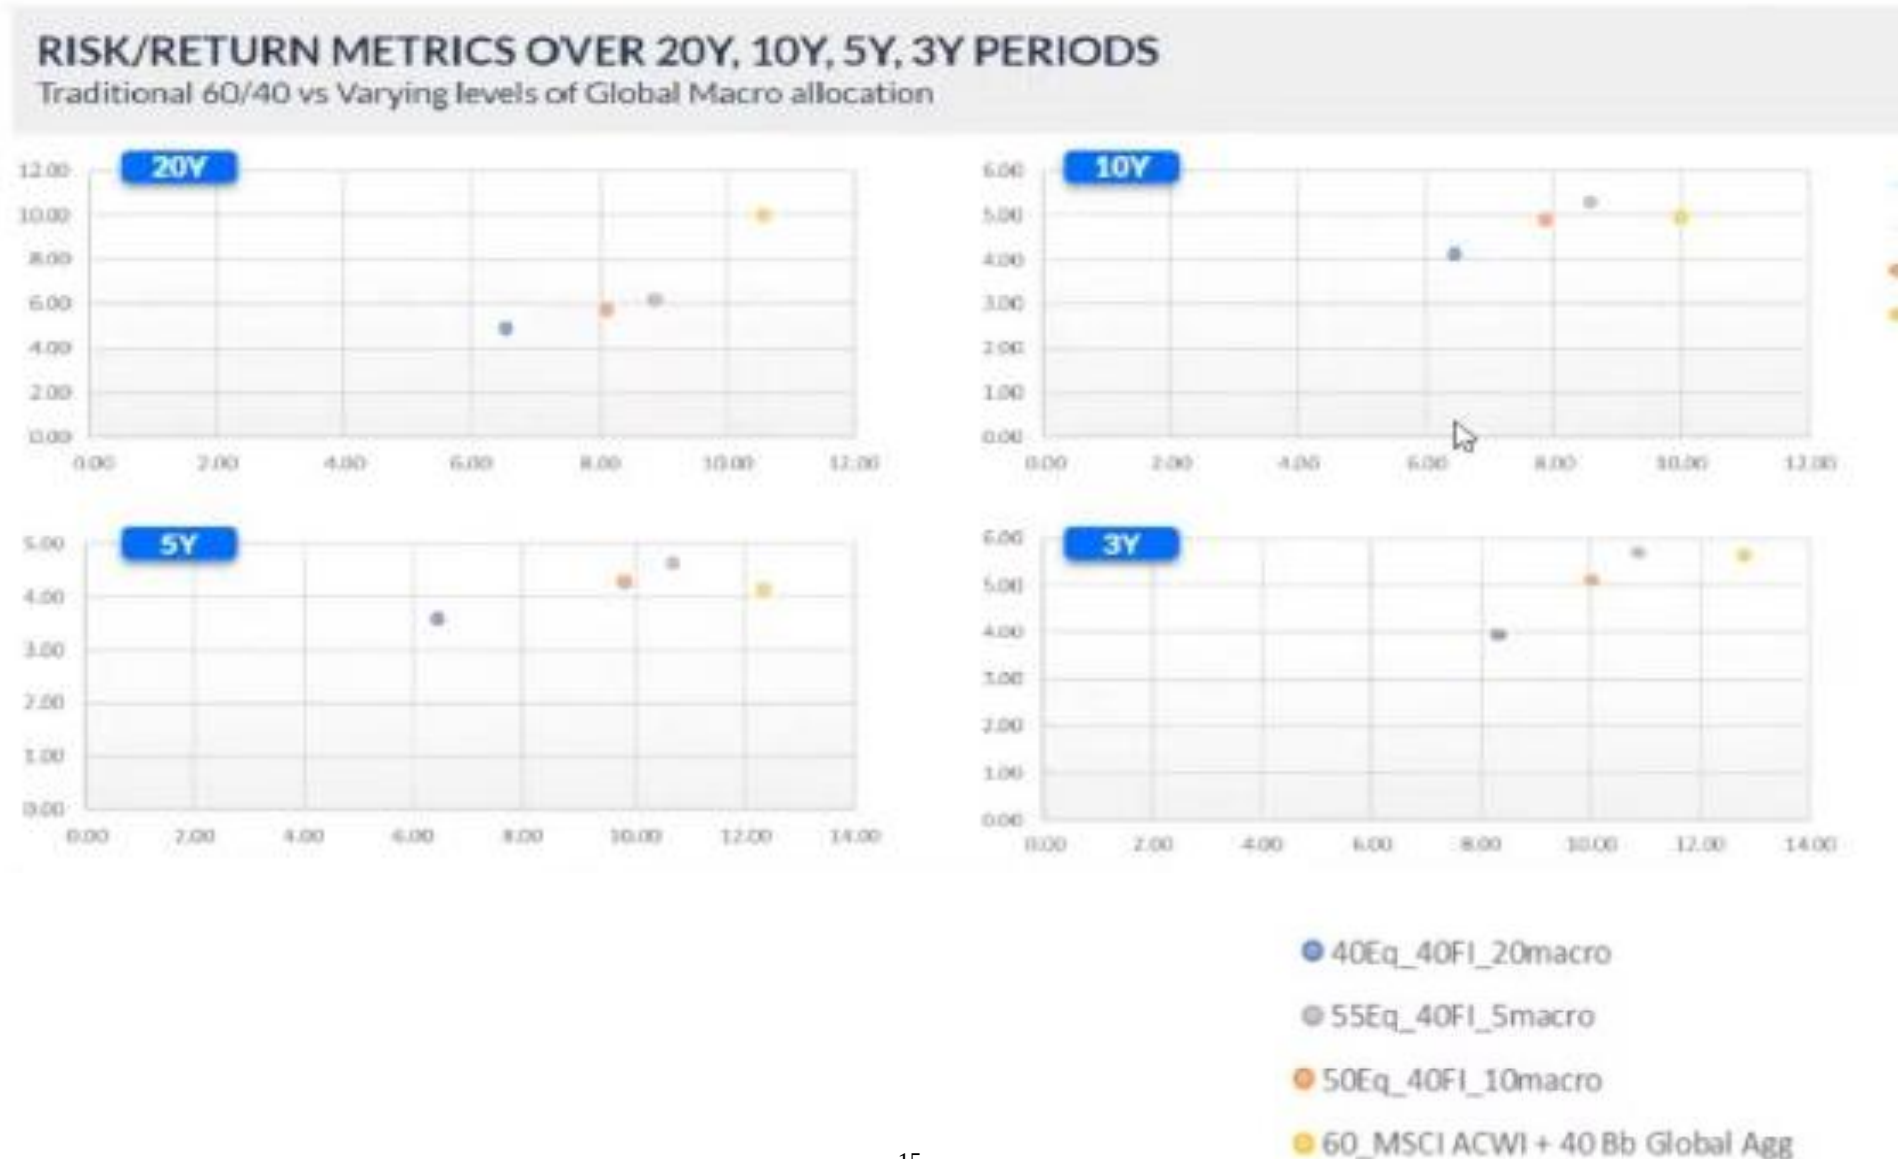

Benefits of Allocating to Global Macro

(1) Better controlled drawdown

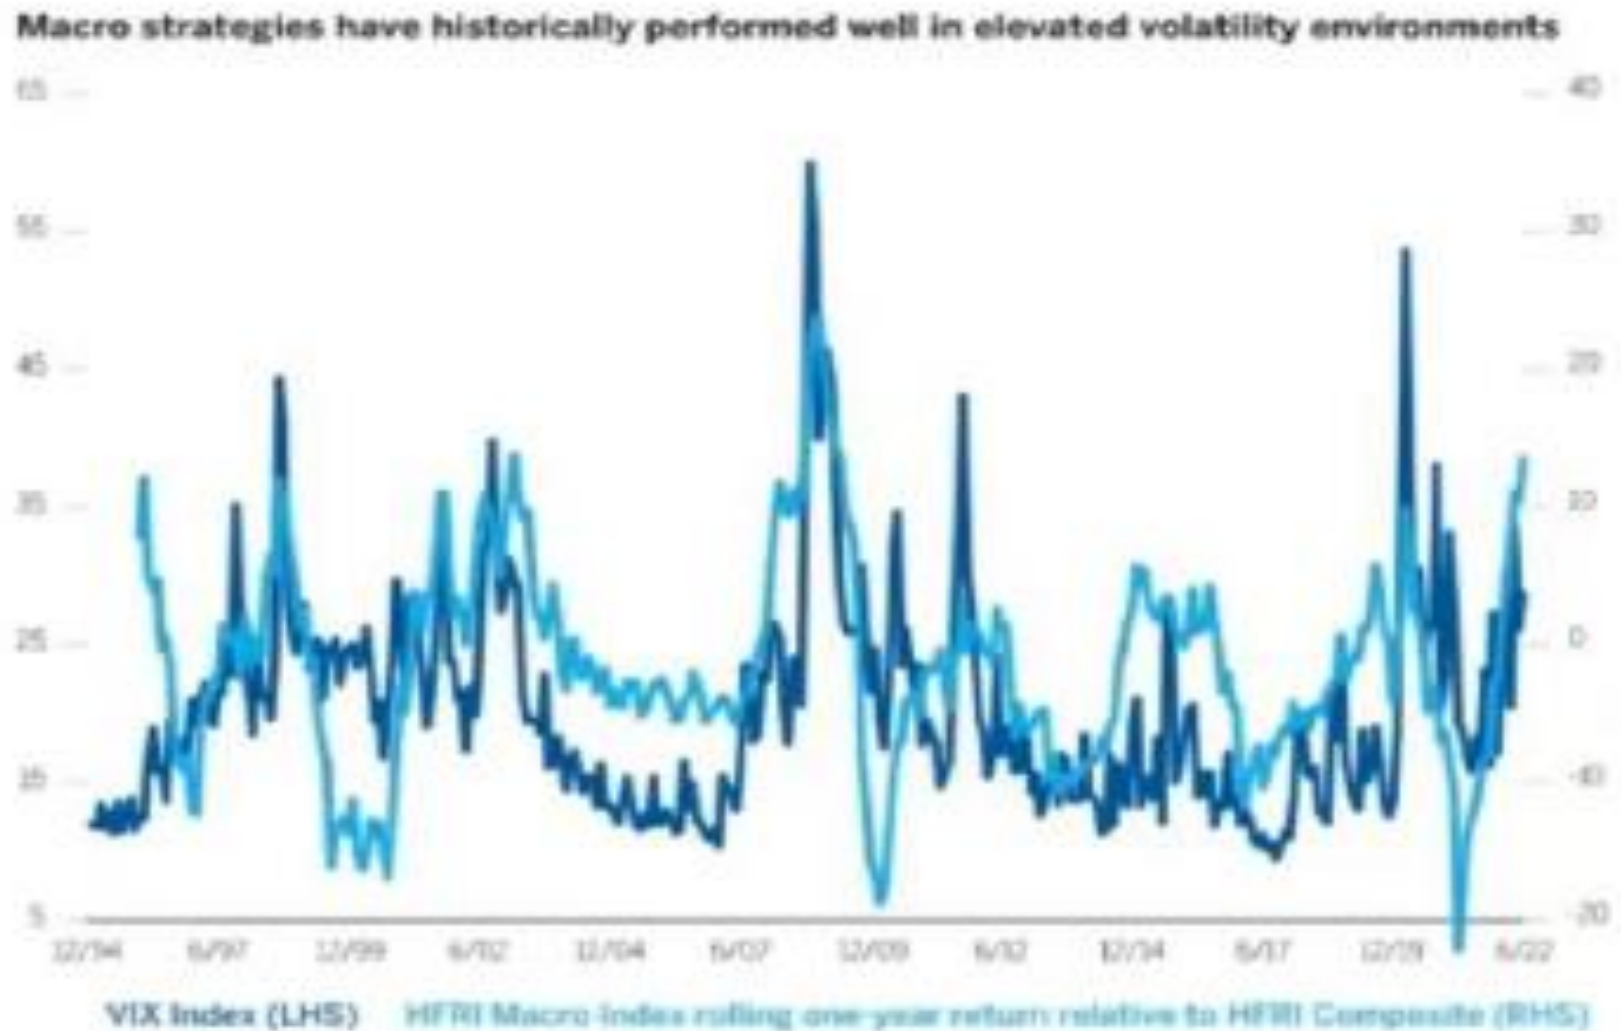

Benefits of Allocating to Global Macro

(2) Potential for improved risk/return profile over different period

What is the ideal environment for global strategies?

- Elevated volatility

What is the ideal environment for global strategies?

- Elevated volatility
- 글로벌 매크로 전략이 변동성 높은 시장에서 좋은 성과를 내는 이유는 높은 불확실성과 큰 시장 변동으로 인해 다양한 기회가 생기기 때문이다. 변동성이 높을 때는 글로벌 자산에서 가격 왜곡과 비효율이 발생하기 쉽고, 매크로 전략은 주요 경제 동향과 사건을 활용하여 이러한 비효율성을 공략하는 데 초점이 맞춰져 있다.
- 변동성이 높은 환경에서는 자산군, 국가, 섹터 간 수익률 격차가 커지는 경향이 있어, 글로벌 매크로 전략은 저평가되거나 고평가된 자산에 대한 포지션을 통해 수익을 창출할 수 있는 기회를 얻는다.
- 또한, 변동성이 높을 때 중앙은행이나 정부가 통화 및 재정 정책을 시행할 가능성이 커지며, 매크로 트레이더들은 이러한 정책 변화를 예측하고 이에 따른 시장 움직임을 이용해 수익을 창출할 수 있다.

글로벌 매크로 투자시 고려해야 할 위험 요소들

□ 위험 요소들

1. Concentration

2. Leverage

3. Illiquidity

4. Regime shifts

5. Past performance does not equal future results

Why macro again

□ From Wellington

These are spectacular times for macro! And great times for macro are typically not good times for general investment - owning stocks, owning bonds. Macro works when everything is broken that's when you have the most volatility and it's the best for the type of trading that I do.

Paul Tudor Jones

CNBC Interview, 10 October 2022
